- Security ring handle

PHILIPS
AVENT

sense and simplicity

Highlights

Orthodontic teat

Flat, drop-shaped symmetrical teats respect the natural development of your baby's palate, teeth and gums, even if the soother ends upside down in the mouth.

User-friendly silicone teats

The silicone teat is taste and odour-free so it's more likely to be accepted by your baby. The silicone is smooth, transparent, easy to clean and it doesn't get sticky. The teat is strong, long-lasting and won't become mis-shapen or discoloured over time.

Security ring handle

For easy removal of the soother at any time

Snap on hygienic cap

To keep sterilised teats hygienic.

Can be sterilised

Can be sterilised

Dishwasher Safe
